THE CUSTOMER

Hellenic Petroleum, renamed in 1998 after its flotation on the stock exchange, is historically the Greek public oil company known as DEP. It is the regional leader in the production of electricity from hydrocarbons in the Balkan region.

Through the official distributor of the Gardner Denver brand in Greece, CTA used its know-how to offer Hellenic Petroleum a pneumatically controlled dryer offering all the necessary safety features required for installation on an oil platform. In this case, at its major site in Thessaloniki.

CTA EQUIPMENT

- DA 004 / AA – pneumatic finish– certification ATEX
