EKE 251

**Description of the equipment**  
Propane R290 chiller  
Air-cooled

**Total capacity**  
64,6 kW | +12/+7°C @ 35°C

### THE CUSTOMER

Nestlé, world leader in the food industry and committed to a high-level CSR (Corporate Social Responsibility) policy, has once again placed its trust in CTA to cool the air handling units at its Itancourt site (02 - Aisne - France) using an R290 fluid chiller based on CTA's engineering and expertise.

Our client, a leading national refrigeration specialist, was able to respond to the technical constraints on site and ensure the cold production required to supply the air handling units.

### CTA EQUIPMENT

- EKO.E /I AS 251 R290 400/3/50 cooling capacity 64,6kW
