

CONTEXT

Customer : DAVIGEL

Sector of activity :
Food industry

Location : GEVREY-CHAMBERTIN
Year : 2019

Equipment installed :
EKO.E/MT 2S-I/ST/AS 502S:

Description of the equipment :

- R290 air-cooled chiller.
- *2 refrigeration circuits.
- *1 CP variable speed drive.
- *High efficiency condenser.
- *Double hydraulic pump.

Total capacity :
50KW | -8°C/-4°C @35°C

THE CUSTOMER

DAVIGEL, a subsidiary of the SYSCO group, has been a major player in food distribution in France for over 55 years. Specialising in fresh and frozen products, the company provides solutions tailored to catering professionals. It employs 3,000 people and generates sales of €653 million for 6,000 customers.

At its site in Gevrey-Chambertin (21), DAVIGEL has installed a chilled water unit to supply a cold store and guarantee optimum control of food storage temperature. This installation ensures optimum product preservation while improving the site's energy efficiency.

They choose to install a (R290) EKO.E/MT 2S-I/ST/AS 502S chiller from CTA, a high-performance, reliable solution that meets the strict requirements of the cold chain.
